August 30, 2021

Dear Friends:

We are excited to announce that as of August 30, 2021, **Temp Control HVAC** has acquired **Southside Air**. After 31 years in the industry, Brian Ferguson has decided to retire and start his next chapter in life. Brian would like to extend his thanks to all his wonderful clients who have been such an encouragement and support over the years, thanks to all of you. As a result of his retirement, we welcome the opportunity to service your Heating and Cooling needs.

Temp Control is a locally owned HVAC service provider in business since 2004. David Komar and Doug Kidd are residents of Nashville and are local owners, in the office every day. We have known and worked with Brian Ferguson for years. We offer HVAC repair, replacement and preventive maintenance for residential and light commercial heating and cooling systems in the greater Nashville area. In summary, we maintain the same values that Brian has used since 1990 – Honesty, integrity, and sincere customer service.

Our **Residential Comfort Club Preventive Maintenance Plan** is a Prepaid, annual discount plan that offers (2) maintenance checkups a year, one in cooling mode and one in heating mode (approx. 6 months apart) as per manufacturer specifications. You can continue to enjoy the same maintenance services offered by **Southside Air** plus we offer a 15% discount on HVAC system repairs with this plan. The cost is the same as **Southside Air**, \$180/per year for the first system and \$120/year for each additional system. We also offer this plan monthly with a recurring debit/credit card payment of \$16.95/month for the first system and \$11.95/month for each additional system.

*We are starting to schedule our FALL checkups in September (weather permitting) and will continue heating maintenance throughout the fall/winter season so give us a call to set up your **Comfort Club** Preventive Maintenance Plan and schedule your Heating Checkup soon. We have attached our **Comfort Club** preventive maintenance plan for your review. Please note page two (2) lists the services provided at each checkup.

Please give us a **CALL** to schedule maintenance, repair, or for a complimentary HVAC system replacement or ductwork replacement quote today, 615-837-4449. We look forward to meeting you and servicing your HVAC needs.

Your friends at Temp Control HVAC,

David Komar
Owner, Temp Control

Doug Kidd
